Okay faggots, lets recap the past 24 hours:
>CoD trailer released with widely circulated ex-KGB Russo-glowie explaining subversion, normie redpilling initiated
>Trump publicly acknowledges the existence of Q and Satanic pedos, redpilling is being prepped for high intensity memetic spacetime travel at this point
>FBI tweets the Protocols, redpilling is now seeding itself into sub-atomic particles on the quantum layer to affect entire vibrational frequencies at once
>Rudy Jewliani talks about all of these events and then says a huge bombshell is being dropped today, memetic density pressure is now building to nuclear devastation levels within every vibrational layer of spacetime
>NASA predicts solar flare today which could potentially wipe out all electronics and communications, signs of endgame have been identified, universal vibration on the verge of volatility apocalypse

So what the fuck is it boys? What was Rudy talking about? What the fuck is going to happen? Post predictions ITT.

Shit hitting the fan. It's not a coincidence, that many redpills are just put into the air just in ONE WEEK. From my side of perspective - west have a leftist aggresive propaganda and economic problems. They don't know how stop that from happening more, So they "accidentally" redpilled npcs and normies. What's the plan? It's easy - first option is to take off the leftist thug label. Normies and pol/tards organise their third party and go wild west. Second option - leftist are out of control and needs to vaporize them by normies hands and go back to US origins. Third option - are similar to first, but this time normies will be used as scapegoat, who are responsible for their actions done before - "white supermacist". Which one is most possible? I don't give a fuck - for now existence of my Homeland is in great danger thanks to EU-Putin coalition.

This is based on what I know. Pedo level revelations will come out in October. Probably going to see massive riots in September. The craziest will only get crazier.

November is very dark. Trump will claim Democrats cheated and they'll claim the same leading to chaos. Possible ET's make themselves known at this time making it all worse. Gets better in January.

After 2012, we've been treated to happening after happening, always a threat of nuclear war, but war never comes to fruition, while society gets worse and worse by the year and the average person is doing nothing to fix it. We are cursed to live in a degrading society while nothing happens, it started only after 2012, which some called the end of the world. As long as humans live, there will never be an apocalyptic event, we are doomed to live the worst fate imaginable, which is a mediocre one.

There will be no outages, no major storms. No civil wars or nigger insurrections. Just floating for a billion years in space until we fade into mediocrity.

You joke but this is how it's always been. Pol has so much influence and power some joke that it's magic.

If pol and then ecelebs hadn't been hyping up that they expect a civil war mainstream wouldn't have jumped on and told normies they expect civil war.

It's these ripples created by one or two people on an image board that become real tidal waves.

They are going to issue roundup orders for ALL rioters/protestors, George Soros is going to have a warrant out for his arrest(Russia already has one out on him), and that will just be the first in many moves to come to take down Obama and Hillary for subversion of our country.

pic related is the woman who bailed out tons of rioters, including the two firebomber Ivy Leauge lawyers. take a look at the firm she works for...

They are subverting us you fucking tards... not a good thing

It’s called a white noise attack, instead of a pressure release valve they just slowly open the tank, some niggers will get burned but our time to flip the table will lack a unifying catalyst as they keep normalising violence on us, just look at the white kids who have died that’s apparently not enough... what we need is it to be on video and a way of spreading it (the guy who surrendered and got kicked in the head went really well in the boomer test)

It’s a bold strategy schlomo, let’s see if it works out for (((em)))

Anyone with a the ability to spam niggers murdering women and children even if they aren’t recent just frame them as such.... NOW IS THE TIME

The news is starting to report on black crime they cannot be seen “FAKE NEWSING” shit

Jeremiah 30: Restoration of Israel
Ask and see:
Can a man bear children?
Then why do I see every strong man
with his hands on his stomach like a woman in labor,
every face turned deathly pale?

What this line is referring to is Zeus. Zeus bore Athena of his own, this was to show he was no man. This was how he overcame nature.
For heroes in Greek mythology they did this through the attempts of cheating death. That's what this line is referring to. Jesus says “Do not think that I have come to abolish the Law or the Prophets; I have not come to abolish them but to fulfill them."

What we need to know, is that what Jesus is doing here is stating that the Prophets have been fulfilled, so lets take a look at a prophecy from the book of Daniel, where a descendant of Zeus fulfilled Biblical prophecy:
Dan 8:5 And as I was considering, behold, an he goat came from the west on the face of the whole earth, and touched not the ground: and the goat had a notable horn between his eyes.

Now, pay attention to verse 5. All of the sudden a HE GOAT comes from the WEST (GREECE) and comes across the known world with great speed that he doesn't even touch the ground. And he has a notable horn between his eyes. In Hebrew parables, a HORN is either a KING or a KINGDOM. This horn is Alexander.

Cyrus the Great are the ones who brought the Jews back to Israel in the first place. THEY already were restored at the time of Jesus Christ

"I will surely save you out of a distant place, your descendants from the land of their exile."

This post will fall on deaf ears but the predictive algorithm AI has been in place since 2012 which determines our most likely action throughout the day, including all buying, selling, and posting. Picture related. This AI is not infallible, however, and it has made tactical errors in the last four years because faulty programming has led it to being unable to see most chaotic inflection nodes (known by some as fnords) which signify the tipping point of change. We are on the brink of changing the future of the world, really. Do not let up.

The Revelations will come but only the awake will understand or even notice. Those lulled to sleep in recent decades will need us to wake them up. This is where re-education comes in. We will re-educate them and they will see the truth. Unlike the historic re-education done by the left, this will not be brutal force-feeding of lies. It will be coaching to see the truth. They will learn, or re-learn rather, how to use their minds, and they will walk out of the centers fully-functioning, well-adjusted humans.

There will be those that resist, and we will have patience with them.
There will be those that refuse, and once identified they will be used to the extent they can.
